

Removal of Student During School Day

The Board recognizes its responsibility for the proper care of students during a school day. In accordance with District procedures, only a duly authorized person may remove a student from school grounds, any school building, or school function during a school day. A person seeking to remove a student from school must present evidence satisfactory to the administrator of having proper authority to remove the student. A teacher should not excuse a student from class to confer with anyone, unless a request is approved by the administrator. The administrator will establish procedures for removal of a student during a school day.

The removal of a student during the school day may be authorized in accordance with the following procedures:

1. Law enforcement officers, upon proper identification, may remove a student from school as provided in Policy 4410, Relations with Law Enforcement and Child Protective Services.
2. Any other agencies must have a written administrative or court order directing the District to give custody to them. However, employees of the Department of Family Services may take custody of a student under provisions of § 41-3-301, MCA, without a court order. Proper identification is required before the student shall be released.
3. A student shall be released to the custodial parent. When in doubt as to who has custodial rights, school enrollment records must be relied upon as the parents (or guardians) have the burden of furnishing schools with accurate, up-to-date information.
4. The school should always check with the custodial parent before releasing the student to a non-custodial parent.
5. Prior written authorization from the custodial parent or guardian is required before releasing a student into someone else's custody unless an emergency situation justifies a waiver.
6. Sheriff should be called if a visitor becomes disruptive or abusive.
